PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Front-End Developer with a strong foundation in building responsive, usercentric web applications. Proficient in HTML5, CSS3, JavaScript, and modern front-end frameworks. Adept at transforming complex design wireframes into clean, semantic, and high-performing code. Strong problem-solving abilities paired with an eagerness to contribute to dynamic engineering teams.

TECHNICAL SKILLS

Languages:	HTML5, CSS3, JavaScript (ES6+), SQL
Frameworks & Tools:	Bootstrap, Tailwind CSS, React.js (Basic), Git, GitHub
Developer Practices:	Responsive Web Design, Cross-Browser Compatibility, Semantic HTML, Web Accessibility (WCAG)

PROJECTS

Interactive Quiz Web Application <i>Independent Developer Project</i>	2025
- Designed and built a dynamic, client-side quiz application utilizing vanilla JavaScript, HTML5, and advanced CSS transitions. - Implemented state management to track real-time user scoring, structural timers, and randomized question order sequences. - Utilized browser localStorage to retain and display user high-score leaderboards, driving user re-engagement.	
E-Commerce Landing Page & Catalog <i>Independent Developer Project</i>	2024
- Engineered a fully responsive promotional marketplace interface leveraging CSS Flexbox, Grid, and media queries. - Optimized asset loading speeds and optimized visual structures across mobile, tablet, and desktop viewports. - Integrated semantic markup structures resulting in highly improved access paths and search visibility profiles.	

EDUCATION

Bachelor of Technology in Computer Science & Engineering <i>Mohan Babu University Graduation CGPA: 8.2/10</i>	2023 – 2027
